

MONTHLY NEWSLETTER NOVEMBER 2018

ULTIMIZERS, INC.

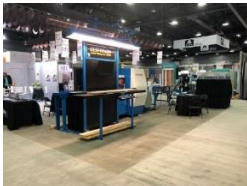

CURRENT PROJECTS

Prototypes

Here at Ultimizers we know the importance of changing with the times and staying ahead of the competition. We are always working on new machines, better software, and fresh ideas. We are currently working on 6 different prototypes and have 2 future

prototypes we are wanting to build! There are a couple of specific machines customers have asked about and we decided we are up for the challenge! We are excited

about the new projects and are very eager to share them with you! Keep looking for more information on the prototypes!

TP&EE! We had a great time at the Timber Processing &Energy

Expo! We saw many people we knew and met some new folks. The Expo had some great

presentations that we attended as well. We were also in the perfect spot to see the presentation of the Timber Processing's 2019

Person of the Year!

Congratulations Red Emmerson and Sierra Pacific! Take a look at our booth pictures that we have on our Facebook page as well.

MANUFACTURERS
OF SCANNING AND
OPTIMIZING
SYSTEMS FOR CUT-
TO-SIZE WOOD
OPERATIONS. ALL
PRODUCTS ARE
MADE IN THE USA

WHATS COMING UP NEXT:

There are no more conventions or shows happening for the rest of this calendar year.

Stay tuned for the 2019 lineup!

The Holidays are coming up soon. A time to reflect on the whole year of blessings. Take a moment to think about all the things you are thankful for!
